

**HOMESTEADER™ PERSONAL PLOW**

**YOUR DRIVEWAY. YOUR SNOWPLOW.**

## GRAB A COFFEE, HOP IN, AND TURN ON THE HEAT

No more struggling with a heavy snow blower. Now you can clear your driveway the easy way. When you want, and how you want.

The Homesteader™ Personal Plow is built for today's light trucks and SUV's by the experts in snow management for over 60 years.

Available in two sizes—6'8" and 7'4".

*Durable polyethylene blade never needs painting. Even heavy, wet snow rolls right off its slick surface.*

*The Homesteader fits most late model compact trucks and SUV's.*

The Homesteader plow complies with Federal Standards and vehicle manufacturers' weight ratings.

Exclusive Scrape Lock feature hydraulically locks the blade down for clean scraping action.

Heavy duty elastometer trip springs allow the blade to "trip" forward when it strikes an obstacle, protecting your vehicle and plow from jarring damage.

The receiver brackets on your vehicle are removable, by simply pulling the pins, for optimum ground clearance when you're not plowing.

With the convenient hand-held control you can raise, lower and angle the plow from the comfort of your warm vehicle. A compact, dash mounted "joystick" is also available.

Attaching your Homesteader snowplow is so simple. Either drive into the attachment arms on the plow, or slide the Homesteader into the receiver brackets on your vehicle. Then connect two pins, remove two jacks, and plug in the electrical connectors.

**AVAILABLE IN TWO SIZES**

<b>Blade Width</b>	6'8"	7'4"
<b>Blade Height</b>	21"	21"
<b>Plowing Width (full angle)</b>	5'10"	6'8"
<b>Total Weight (approx.)</b>	250 lbs.	280 lbs.
