

CONTRACTOR GRADE®

# PRO PLUS®

## BIG, TOUGH AND BUILT TO LAST

Since its introduction, the PRO PLUS® has been a best seller for WESTERN®, and contractors continue to be impressed with its strength and versatility. Designed for heavy-duty commercial and light municipal applications, the 7 1/2', 8', 8 1/2' and 9' PRO PLUS line fits a wide range of vehicles, from 3/4-ton to F-550-size trucks.

# PRO PLUS®

**WESTERN**

**POWER BAR**

The industry-first, optimum-strength POWER BAR provides exceptional torsional strength and rigidity to eliminate the blade twisting that's often seen in severe use.

**TUBULAR QUADRANT**

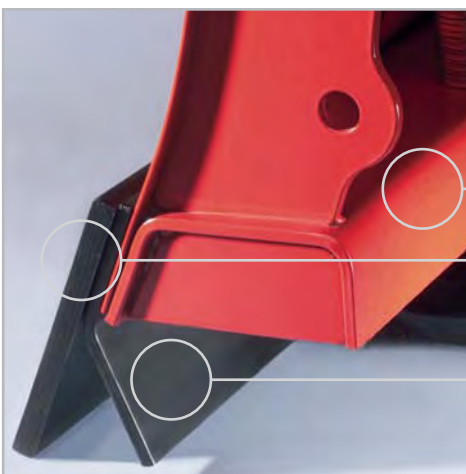

The heavy-duty tubular quadrant is built to withstand season after season of commercial use.

**PIVOT POINT**

PRO PLUS has a massive pivot point with a 1" diameter pivot bolt to ease nose plate stress.

**A-FRAME CONSTRUCTION**

The 3" square tubing provides increased strength.

**HIGH-STRENGTH STEEL BASE CHANNEL**

The high-strength steel base channel provides extra support where it's needed most.

**CUTTING EDGE**

Standard 1/2" x 6" high carbon steel cutting edge.

**OPTIONAL BACK DRAG EDGE**

The back drag edge makes clearing snow away from doors and other tight areas easy.

**OPTIONAL BLADE WINGS**

Blade wings have been a huge hit with contractors. They allow scooping, add carrying capacity and reduce trail-off. They utilize a single pin for quick attach/detach.
